

ROOTED HERE. GROWING HERE.

Branching out
to where our
community lives.

Grand Itasca Clinic & Hospital is thrilled to extend our reach with a new location. On April 7th, we're opening a full-service clinic, staffed by physicians, to meet you where you already go to stay healthy – the YMCA. The new clinic offers primary care for all ages and is just another way we're keeping our community healthy – a mission we share with our valued partner the YMCA.
